

# *Need an excuse to host?*

Would you consider an Open Garden to raise money for a local developing charity.

We are looking for people in our community to open their gardens up to the public and host a tea and cakes sale to raise much needed funds for

**The Treasure Basket Association.**

Here at TTBA we are passionate about supporting children's emotional health.

With these essential funds raised we can give local children positive childhood memories. Research has proven that children can learn to manage and overcome emotional and behavioural difficulties through play and our history supports this further.

'We believe all children experiencing emotional distress should have fast direct access to emotional support'

All contributions make such a difference in helping us in our mission to 'increase access to play therapy and therapeutic resources for children'.
